

## Psychology Postdoctoral Fellow - UTHealth Houston

The Department of Psychiatry and Behavioral Sciences at The University of Texas Health Science Center (UT Health Houston) is seeking a psychology post-doctoral fellow interested in clinical and research training in child and adolescent psychology. Applicants **must** have a PhD in psychology. Clinical and research training will focus on youth receiving school-based tele-mental health services and children/families in the community who are participating in community-based social-emotional skills groups and evidence-based parenting programs. Postdoctoral fellows will deliver services via telemedicine, and in-person at community sites in Harris and Fort Bend Counties.

Trainees will choose between one or two tracks within the postdoctoral fellowship with one track focusing on school-aged youth and a second track focusing on early childhood and parenting. The school-age track includes the delivery of brief social emotional groups at Boys and Girls Club and YMCA locations. The second track includes a focus on early childhood with postdoctoral fellows delivering relational-focused parenting classes to caregivers of children under 6 years old. Both tracks include research and training opportunities and can be customized to individual professional training goals. This is a hybrid position in which postdoctoral fellows will deliver services via telemedicine and in-person at community sites in Harris and Fort Bend Counties.

General educational activities include weekly didactic activities including journal clubs, writing clubs, meetings with senior researchers, workshops on grant writing and individualized career development plans. Scholarly activities are integrated into the fellowship training.

This position offers a competitive stipend/salary (consistent with NIH pay scales), benefits, office space, supplies, and access to internal pilot project support.

Interested applicants should submit a cover letter detailing clinical and research interests and how they would fit with the program, a CV, a scholarly writing sample (e.g., manuscript, concept paper, comprehensive exams, etc.) and the name of three references to [Funlola.G.Are@uth.tmc.edu](mailto:Funlola.G.Are@uth.tmc.edu) and [Cesar.A.Soutullo@uth.tmc.edu](mailto:Cesar.A.Soutullo@uth.tmc.edu).

### Minimum Requirements:

A PhD in Psychology (e.g., Clinical, School, Counseling) is required. This postdoctoral position involves providing clinical services to youth. Individuals with degrees outside of psychology are not eligible.

### **Application Due Date:**

The priority deadline is December 1st, but applications are accepted on a rolling basis.

### **Position Start Date:**

Positions available for Fall 2025 (July/August start date).
